A MEMORIAL DESIGN PRESENTATION

Preface

Webster's definition of the word Pet...Pet (Pet) n. an animal kept or regarded with affection; a favorite. Simple words, but the memory of a pet is long regarded in the hearts of the ones left behind.

This book features a wide variety of pets. Including dogs, cats, horses, cattle, birds, rabbits, ducks, squirrels, frogs and many more. If your pet is not featured remember that we can personalize YOUR PET just for you. Please note the variety of designs, shapes...markers, upright monoliths as well as upright monuments on bases. Also there are designs for features in cemeteries, bird sanctuaries, humane societies, cemetery entrances, zoo's, etc.

We hope this Design Book will increase your appreciation for the memorialization of YOUR PET. This design selection was created to stimulate further insight into your choice of a memorial.

Many years ago vast deposits of granite were discovered beneath the earth. This granite was found to be ideally suited for granite memorials. Due to the chemical structure of granite it could stand the test of time...the memorial industry grew from these plentiful deposits of granite. The Stone is extracted from beneath the earth in many colors and then fashioned into various shapes and inscribed with beautiful ornamentation and appropriate inscriptions to stand as a tribute to the memory of your beloved PET. Perhaps one of these designs will "speak" to you on an intensely personal level. Select a granite memorial for YOUR PET today! Beautiful, appealing, fitting.

(STYLES OR SHAPES SUGGESTED)
