ENTITY REMOVAL (ER) [\[Return\]](#)

WHAT ARE THEY?

- Centillions of invisible entities (220+ types) have invaded billions of beings on our planet.
- Some have been here for 13,000 years.
- If you have had 'trauma' in your life (accidents, deaths, divorce, abuse,

depression, etc.), this is the opening need for nasty energies to invade your essence

- These are not viruses or bacteria and can be 'killed' by drugs or chemicals.
- These are non-physical etheric harmful energies, entities and essences infested **within** us, **on** our bodies or **around** us and can be on your **Spirit, Soul and Etheric Se**
- Some have been with us most of our lives most recently in the last year or two.
- They include the following and more:
- **Types:** curses, implants, blasters, emitters, predators, taskmasters, masterminds, leaches, dragons, beasts, warlocks, devils, demons, creators, overseers, programmed programs, machines, machinists, jackhammers, shooters, crashers, destroyers, directors, overlords, handlers, controllers, connivers, executioners, basilisks, barbarians, terminators, exterminators, vipers, cesspools...
- **Intensities:** negative, dark, nasty, evil, ugly, wicked, beastly...

HOW DO I KNOW HOW I HAVE BEEN HARMED?

- Review the symptoms below and notice repetitive patterns of slow healing, failure, defeat and out of control. These are indicators of an entity presence.
- **Physically:** pain, rashes, spinal misalignment, vision, hearing, headaches, fatigue, libido, stiffness, restless leg, swelling, poor sleep, anxiety, weight gain, low energy, poor or excessive appetite.
- **Mentally:** lack of concentration, poor memory, forgetfulness, unfocused.

- **Emotionally:** nervous, anger, discouragement, hopeless, blame, rage, fear, depression, strife, etc.
- **Spiritually:** disconnected, distrustful, fear, anxiety, lost, vulnerable.
- **Etherically:** blocks ascension, ungrounded, not in heart space, disconnected from Creator, lack of truth, trust, discernment and respect.

WHAT CAN YOU DO FOR ME?

- We have removed **billions** of all types of 'nasties' in all 'intensities' from **individual homes, vehicles, computers, pets** and **workplaces** worldwide.
- We operate from **our hearts** within the **Heart of Creator** of all-that-is.
- We have been **blessed** with the ability to **locate** and **identify** dark nasties of all type
- We do this within the presence of **Creator and powerful guides** with deep **gratitude and appreciation**.
- We ask Creator to **remove all identified harmful items** in the most appropriate manner and for the individual's highest and best.
- Our 'Creator team' then offers **full healing optimization of your energies, provide full protection** and then shower your essence with 'sparkles' of **Creators light and love**.

RESULTS

- Results are **immediate**. Processing and integration typically occur over 24 hours.
- Clients report sensations of **positive healing** throughout their bodies.
- Some report a **calmness** and **inner peace**.

- Others report **positive feelings** emerge replacing **worries** and **fears**.
- More report **physical healing** and a deeper **heart connection**.
- Others notice family, friends and even strangers **treat them better** and **seek them out**.
- Others notice emotions surfacing that had been hidden. Then it's time to utilize our E (Emotional & Physical) healing program as you've done the ER (Entity Removal).
- Following your session, we will **email you names of the entities removed**, how you were **affected**, **how long** they have been there, and the **intensity** (low or high) as well as what was removed for your optional **family, homes, pets, workplace and cars**.
- Finally, we provide you **Protection from Future Attacks**.

WHO ARE WE?

- Rev. Tom and Reiki Master Lois have been successfully providing energy and cleansings work for a combined 22+ years. In recent years, we have removed **billions** of all types of 'nasties' in all 'intensities' **remotely** from **individuals, homes, vehicles, pets, computers** and the **workplace** worldwide.
- There is no need for travel or even being on a phone or internet for removal to occur.
- All that is required is your willingness to accept this gift with an **open heart**.

Ascension will provide us with liquid crystal bodies that are youthful and do not age.

Ascension will be guided by Creator and will take our

souls and spirit to a new paradigm and a fresh new start. Each soul will be creators of their own universe at levels low thru 11 high determined by their spiritual growth from your many lives in this paradigm.

Ascension will be nothing to fear at all...but will mark the beginning of the 'Golden Age' where you will be creating your own 'heaven' in your created new universe.

Prior to ascension and upon humanity's awakening, there will no longer be harm done instead we will bring love and help to one another. This will bring world peace, NESARA, GESARA, the RV and move planet Earth into the light for the first time in 13,000 years since Atlantis.

TRANSITIONING [\[Return\]](#)

FCUSA has transitioned from its early days of education and the AR pro to so much more. We have adopted: **Prosperity Calls** to awaken us to connection to the higher realm; **Quantum Energetics** to awaken us to inner selves; **Earth News** to awaken us to 'real truthful news' of world events; **RV/GCR** news to bring prosperity to all our members.

During these last few years we have been assaulted by the IRS and the SEC... yet we have survived and thrived by the tenacity and heart centered core group of our membership. This core group of deep believers using very club tools mentioned above have uplifted themselves to a higher vibration and supported us from their hearts as well as financially. We deeply grateful for your support.

This same member support team never lost faith and watched us reinvigorate our mission with a new easier home page, a new newsletter format and ever more powerful [QE sessions](#).

Unfortunately, many of our members turned away, lost faith or were seeking only the money and not the self-development needed to attain destiny of ascension. For two years we invited all our members to grow with us with our expanded vision of the future, many came forward and supported us through monthly or yearly maintenance, others have fallen into hardship and yet many more have ignored our request for member support.

During the two year period we were not able to offer the AR opportunity due to a false claim by a former once trusted member in our home office. All parties involved will be disciplined at the proper time. With the upcoming NESARA announcement, the final closure will come allowing us to pay our AR programs.

Tough times for tough people to grow. How have you grown through

own life ordeals? The Earth experience is a learning school... so how are you dealing with your traumas... many are grumbling but more and more are resolving and growing from these temporary challenges through their inner work?

What about those who have turned their back on our club during its greatest time of need? They were given 2 years to either contribute \$30/mo. or if in a hardship they could simply acknowledge such with no penalty. Yet, many did neither. Are they welcomed back? Most certainly but how?

GET CURRENT ON YOUR MAINTENANCE FOR \$30/MO.

[Return]

- We have revisited hardships. Many members have fallen into hardship since the initial cutoff of **7/11/16**.
- All members who had not responded to [option 1 or 2](#) by **7/11/16** were **SUSPENDED**.
- You now have an opportunity to regain your **full status** by starting your [maintenance at \\$30/mo.](#)
- This will restore your status and ready you for your AR payouts.
- We ask returning members to start their [maintenance at \\$30/mo.](#) and pay their arrearages from July, 2014 as they are able. If a newer member, maintenance begins from your date to present.
- We ask returning members to do 5 sessions of QE, listen to live or recordings of Prosperity Calls and read 10 articles from Earth News and sign up for the Newsletter (if not receiving it). Then complete the online 'response' option for each and submit. Most members are already active with these events and will not need to respond beyond starting their [\\$30/mo.](#)

[Prosperity Response](#)

[Earth News Response](#)

- Complete the appropriate [Study Guide](#) for your prior status.

Upon completion of all of the above, suspended members should notify us at [Contact Us](#) of your completion. FCUSA will review your restarting maintenance with a promise to bring current as doable.

and review your return to 'good standing' with an email acknowledgment allowing for your ARs to be paid.

Should you have missed your opportunity to claim 'hardship', [use this link](#).

ARE YOU AN 'AR' MEMBER? [\[Return\]](#)

Following NESARA, FCUSA will then launch its AR payouts and hydrate all our AR members in good standing.

Check your status here: [Transitioning to AR Funding](#). Many of our members have not participated in the required [Maintenance](#) from 7/14 or done their [One Time Maintenance Catch-up](#) nor have they selected Hardship by 7/11/16 and thus are SUSPENDED.

- A toxic cesspool was removed on Special Earth and from its beings that precipitated many emotional and physical health challenges plus it interfered with our higher selves and our growth self for the last 2000 years.
- Creator has made a change to the Multiverse shell to accommodate the new paradigm.
- An advanced technology etheric intelligent device in this great universe was preprogrammed to mess with us physically, emotionally and to interfere with our grounding was removed by Creator.
- 6 Universes including ours was blocking connection from each planet's essence to their higher self. Also affected humans through eye, clair-audio, mental stress with numerous negative physical responses were removed by Creator.
- Creator has set in motion all hearts to lighten and vibrate to new vibrations now entering. All limitations are being removed and a new breath of life is coming to uplift all-that-is into bliss.
- Creator cleared a fear and a block to the spirituality of 20% of humans in 30 Universes. This also blocked our access to our higher self and messed with our heart connection to Creator.
- Creator transmuted a negative energy permeating the entire Special Earth and interfered with human's ability to act on their spiritual guidance. It also stopped human's ability to comprehend that they are living in an illusion.
- Creator removed negative aspect of gang members doing violence, rape and killing. He gave protection to girls most at risk in the world. Gave protection to young males who are susceptible to be recruited by gangs.
- A dark force used to manipulate humans in 4 Universes plus Special Earth. This dark force would make humans very uncomfortable and

blame others for all woes. Still present in human satanic rituals and sacrifices. Still present in political, legal and police rules that we must obey the law and authorities even if they don't sense. Our second chakra is the center of creativity, feeling, emotion, pleasure, sensuality, intimacy, money and connection and was being thrown out of balance producing "we must win at all costs" even at the sacrifice of others. Removed with healing provided by Creator.

- Something was put on our solar plexus chakra creating skin problems and nervous exhaustion. It also interferes with our eye, interrupts focus, messed with our conscience (will, drive) triggers betrayal and strife. Also blocks spiritual awareness. Removed by Creator.
- Numerous dark energies produced feelings of being 'unloved' affected the higher heart chakra. A new negative technology constricting Special Earth by wrapping itself around her and prevents freedom for all her kingdoms. Another sludge essence on her surface and affects all the kingdoms and is holding us in the time illusion and in our 5 senses. There is a newly discovered 'Energy Kingdom' that regulates the amount of light going to various kingdoms and that has been interfered with for 1000 years. The higher vibrational kingdoms (including human) are constricted from access to their 6th sense 'knowingness'. There was a random disbursement of a cloud like etheric substance in the ether blocking our telepathic abilities. All have been removed.

We will have a new ability to spiritually delete that which is not of light. Creator has set in motion the removal of the 'log' in our eyes we are looking through as we see or judge another. We will see others from an unimpeded heart with love.

- One dark master, 1 source and 10 creators have precipitated 'garbage' upon a total of 3 Universes (including ours) precipitating dark aspects in beings who have visited or been captive in a prison. It has been removed from all these beings.
- Five dark active masterminds and 2 inactive. 20 sources and 10 creators of "trash" were found limiting the ability to heal in 11 kingdoms on Special Earth and in 11 other universes has been removed.
- Prime Creator has removed the 'Dark Matrix' that the Annan created in our moon since the days of Atlantis. This powerful system held our unresolved emotions from prior lives, making it difficult to release negative emotions causing them to feel normal. It further limited our intuition, amplified negative

emotions and blocked our outbound messages to the higher realm. Dark ones could return to their power families but those seeking light could not release their previous life traumas nor ascend out of their matrix and thus we carried these traumas back to a new incarnation to live them again. They further erode our memory coming into our new lives and blocked our recall of them. The negative energy further pushed people out of their hearts and into their heads and ego.

- Prime Creator has further set in motion the energy to return beings to their heart space and return to the heart of Creator
- Creator had a gift for all-that-is in the Multi-Verse to assimilate into the new paradigm and becoming one with all-that-is.
- The following messages are from various Goddess from other Universes.
- The Milky Way galaxy is being enhanced as she becomes her Universe.
- We have a twin planet in another system in this galaxy that has recently ascended to 5D and this info is in the Akashic records available when the masses of Special Earth ascend.
- All darkness in our U will be transmuted to light. All negativity will be removed. Both events will be occurring soon.
- Special Earth can now reclaim her original energy before the matrix was put into place by the Annanaki. Special Earth's third eye is expanding to assist our ascension to 5D.
- Message from Master Lady Nada. Something is changing for all beings within the Milky Way galaxy. This will move all beings from their hearts then into Creator's heart.

THANK YOU PRIME CREATOR

Self-respect: 100%	Creator Respect: 100%

ABUNDANCE [[Return](#)]

First of all, what is abundance? We first may think of money possessions. Yes, they certainly are a part of our abundance. What about your health? Your freedom from debt? Your living with just laws? Your freedom of a truthful press? Your freedom to refuse harmful vaccinations, flu shots, chemtrail fluoride, fracking, HAARP, wars, terrorism and taxes?

As global GESARA implements and truths are freely told, the cleanup of our politics, financial system, health system, trade system, legal system and with the currency reset underway with distribution of quintillions of dollars among the hands of millions, what will you do?

How will you apply your time, talent and funds?

What will be your first task? Plan a vacation... well deserve. Perhaps find ways to feed the hungry, care for the homeless jobless. All noble actions. Perhaps you will bond with our members to share your time and talents to be more effective and increase your coverage about our planet.

This is why FCUSA has prepared to gather our helping members in groups of like minds to rollout projects more rapidly and effectively. Some will be done at our Celebrations, others via conference calls or breakout meetings in regions. What is your pet project?

You may want to [vote here](#) to give us an idea of your preferences. This will help us prioritize projects that interest you most.

With the holiday season upon us, this would also be the optimal time to do a heart check on what Creator's son, Jesus (Sananda), had to say. [The New Scriptures](#)

RV Redemption

Call the 800# within 48 hours from when you receive it from your [Alert](#). When you are at the Exchange Appointment, ask for the **Highest Private Negotiated Rates**. Be prepared to talk and produce a short bulleted overview about your favorite humanitarian project and how they will produce jobs and help humanity and Earth.

ZIM Exchanges

ZIM holders appear to have a bit more flexibility with 48 hours to call and set your appointments. You can set your appointment later but to qualify for the PNR (Private Negotiated Rates) (formerly Sovereign Rates) call within 48 hours. Once your appointment is made, you will hold your high rate position for your later appointment.

Private Negotiated Rates

The Sovereign rates or Private Negotiated rates are for those with Humanitarian Projects or Plans. These should include job creation starting new business, helping existing businesses especially those that are failing, rebuild and provide new machinery for factories, build homes, food banks, build churches, help Veterans, help volunteer programs for schools, hospitals, etc., rebuild inner cities, help with infrastructure locally, nationally and internationally, help with food production, help ranchers and farmers, build new means of energy, provide new buses to all the schools, build new parks, improve existing parks, build senior citizen centers, provide world study programs, help seniors, build colleges, build hospitals, build free health clinics, build schools, build training vocational schools, free tutoring centers, provide college scholarships, help local municipalities such as the police force, fire department, public works, etc., animal shelters, environmental issues and cleanup of the earth, oceans, rivers, lakes, etc. fund existing charities. RV Rollout Programs

ZIM: [Ebay](#), [Amazon](#) and [The Great American Coin Company](#) are three sources offering the 100 Trillion Zimbabwe Banknotes, 2008 AA.

International: This is the lowest rate. It can be seen on the front screen around the world, and will be converted for you without a structured program.

Market: This is a flat rate, which is higher than the International rate. It can be received if the client is willing to enter into a structured payout program, whereby a majority of their money goes into an investment for a period of time. Annuity interest payouts will be assigned per quarter and honored through the length of the structured payout agreement. Also, there will be a percentage of immediate liquidity (likely up to 20%) all clients will be allowed to access immediately (basic Non-Disclosure Agreements required).

Highest Private Negotiated Rates: This was once called the "Sovereign Rate," but is now being individually and privately negotiated at the time of redemption for clients who desire to service large **Humanitarian Projects** or **Create Large numbers of Jobs** with their earnings. A client will have to justify, show intent, and have pre-fabricated plans to receive the highest possible rates that are associated with Private Negotiated rates. Each negotiation will vary and be strictly confidential (advanced Non-Disclosure Agreements required).

Christ Consciousness [\[Return\]](#)

Building on the Universal 'Christ Consciousness' given to all who have entered the 4th dimension (100% on Earth **with 100% thus accepting**), have you now moved into your heart space and moved your heart into the heart of Creator?

This is a spiritual experience as your next step of ascension. Step into these new energies as did Jesus the 'Christ' or John the 'Christ' or Trisha the 'Christ' etc. We all who are in 4D or higher have received this gift, now what will you do with this amazing gift?

QUANTUM ENERGETICS [\[Return\]](#)

If you missed our last special HEALING SESSION with our last [QE session](#) you can participate on the recordings now. Most participants are embracing the shift into this higher dimension and somehow lighter and carry an inner peace and knowing that all is well and healing.

Occasionally, a member will feel they cannot get to their deep is for full QE release. Upon testing several of these, we have found they were inflicted with **dark or negative energies** in, on and/or

around their essence. If the individual is willing, we can easily release these remotely opening up a truer vision of themselves and giving them great relief.

If you have [registered for QE](#) (\$0 upfront cost and the balance of when you receive a payout from a club program) and this feels like your dilemma, use [Contact Us](#) and ask for a '**test and clearing of dark/negative energies**'.

We are either processing our traumas with light and forgiveness or we are stuck resisting the light and creating internal havoc with our emotions and health. You either rise with the new energies of love or fall by resisting them. May you be blessed by accepting them.

[Quantum Energetics](#) [Testimonials](#)

"Although I had no trouble being clear about the emotions I was feeling I did have trouble connecting with any specific event. However, as the session progressed, I DID feel the emotional releases. This was especially evident after I brought my 4 year old self down from the cloud and gave a hug. I found that by embracing a small pillow helped make the connection feel real. After that, my invocation to St. Germaine and Lady Mary for me really started the Violet Flame action going." R.P.

"Thank you so much, Tom, for generously and graciously sharing your healing methods with all to lift our world. (Not to mention, with humor so needed this. I feel like a limp noodle who can now Believe, Love and more completely!!!"

"I really appreciate QE more and more each time I do these sessions. My increasing day-to-day lightness of spirit must be palpable to strangers, because I am experiencing more and more positive reactions to me without my even saying anything as I go about my day." R.P.

BECOMING MORE HEART CENTERED

The most significant part of all this is letting go of "outward in" living and replacing it with "heart centered" living. You begin to trust your heart within Creator's heart and know the inner messages are the truth. As you trust this guidance in your daily decisions more and more you will discern the truth and solution needed in each challenge. We will rely less and less on the kneejerk response from the latest "false flag" attempt to move us into fear and trust our heart to guide us to the truth.

Explore the [muscle testing audios](#) to discover your hidden abilities and find truth as you release your false beliefs about yourself and your world. This is the great virtue of Quantum Energetics. Releasing from you what is NOT true and replacing them with what IS true

Those in dimensions 3.1 to 3.5 (very low) are having a very difficult time and are leaving the planet or being arrested. Those from 3.6 to 3.12 with effort can make the transition to 4D. [\(QE\)](#)

All political, religious, military, pharmaceutical, medical, bankers, attorneys, judges, police, media and taxing representatives *etc.* who are NOT in the light are now arrested, have died or have been extracted from our planet.

We will see beings of light come forward who have risen into the 4th dimension taking positions of leadership and sharing the truth. We will see NESARA/GESARA and the RV bless our planet with truth and abundance. We will see the media ownership change and truth will be shared worldwide. We will see real freedom return to the real sovereign uSA and to the world.

As the energy has risen, there are no third dimensional beings left on our planet. All *have* either risen to 4D or they have perished. I know nothing that will move your energy to a higher vibration faster than [QE Testimonials](#).

All who choose the light will find it. May you be blessed.

Dreaming a New Reality

[\[Return\]](#)

It is important that you understand that things that you might think far off, things that you might qualify as only dreams, these can become realities and this is the lesson for *all* of humanity. It is to understand the power that you possess when you change your mind from one thing to another - from a low frequency to a high one. It will create the structure, it will increase the hearing and it will allow for the manifestation.

Changing

"Work with love. Remember, whereas it used to be that your

growth was based on discipline, admonishment, fixing, and curing. Now your growth is now about more loving and more healing. It's about changing more than about fixing; it's about healing more than about curing. Work with love." ~ Lazaris

Ascension

Let yourself perceive your ascension process as a fun, enjoyable and pleasurable experience as in doing so you will observe greater light radiating from your being, your energy vibration quickening and your light quotient advancing.

Our New Earth

[\[Return\]](#)

You are likely discovering those "artificial clouds" in the sky are loaded with destructive chemicals, toxins and viruses intended to harm all life on planet Earth. Vaccines are now skyrocketing autism in our children; GMOs are destroying our food supply; sonar is destroying dolphins and whales; HAARP is creating or enhancing hurricanes, tornadoes and earthquakes; and fluoride in our water and toothpaste are numbing brains!
