

HD Centers of Authority

Emotional Authority (Solar Plexus) is rooted in feeling rather than thinking. Emotions work in a wave, as a deep awareness of the environment, FEEL what is good for you.

Sacral Authority is exclusive to the Generator and Manifesting Generator. Sacral authority is response in the now. It is the life force lighting up to be available, or not, for whatever it is responding to.

Splenic Authority (spleen) is exclusive to Manifestors and Projectors. Spleen authority is rooted in survival and is the oldest and most existential awareness. The spleen's main job is to say NO to anything that endangers your health.

Ego Authority (heart) is exclusive to Manifestors and Projectors, and is the rarest of all authorities. Ego authority is rooted in the correct use of willpower. The ego, when properly used, makes a commitment to something that is correct for that being.

G Authority (Self-Projected) exclusive to projectors, is rooted in the expression of the self. The G projector begins to recognize itself through interaction with the other.

Mental Authority, also known as "none" or "environmental," is exclusive to projectors. This authority learns to feel in the body what environment is beneficial and SEE who really wants its unique perspective. The correct environment will bring the correct people and activities, and a feeling of relaxation in the body.

Lunar Authority, exclusive to the reflector, is navigated through the movement or transits of the moon. This is different from all the other authorities. Environmental awareness is also key here. It is very important that these beings be in the correct physical location as they bring a reflection of their environment to the world.
