Subject: Please place our names and email address on the DRS Solar record. Our opposition on the Solar Power Plant application for Corners of Yellow Mills Road and Fox Road in the town of Farmington NY

We are writing to you to request that you add our names Tammy C Johnson & Edward A Johnson & email address tammyedjohnson@rochester.rr.com to the DRS solar record. We reside at 126 Yellow Mills Road in the town of Farmington NY . We are in opposition of the DRS Massive Power Plant construction at the corners of Yellow Mills Road and Fox Road in the town of Farmington NY. The town board and planning board that represent the residents in our farming town has heard our alarming concerns, and despite all the negative impacts to our residents & community they have chosen to give a moratorium to Delaware River Solar. They Are a company that does not reside in our rural community . We would like to let the record state that we are in strong opposition of this project! The short term gains for them unfortunately have a lifelong impact to our residents, community ,and our environment!

Tammy & Edward Johnson
