

More about Draven

Interests and Activities:

Draven loves bath time, tummy time, sucking on his pacifier and fingers, and loves kangaroo cuddle time with Mommy (Bianca) and Daddy (Patrick)

At birth Draven suffered from:

Heavy bruising all over his body due to contractions, underwent 2 surgeries first surgery intestinal surgery due to a perforated intestine and second surgery was a PDA surgery for his heart to close up the main artery in his heart, weighed less than 5 lbs 8 ounces, has brain damage, had brain bleeds, had to take steroids for his lungs to develop and release the air sacks from his lungs, was on both the jet and conventional ventilator, in the NICU for 50 days and is moved to the ICC and had a broviac line on his chest. Discharge is unknown.

Why do you want to be an ambassador family?

Really need support with this long NICU journey and would also love to help other parents get through what I have been through already.
