CREMATION

A Memorial Design Presentation

WHAT IS A MONUMENT? A monument is a symbol of devotion... It is a tangible expression of the noblest of all human emotions...LOVE. A monument is built because someone lived and should inspire reverence, faith and hope for the living...It should be a source of inspiration to our children and our children's children.

Cremation demands and receives serious attention by memorialist. Cremation is a growing trend today and it is our desire to memorialize the memory of every family member. Cremation is just a different way of preparing the body, the individual spirit still remains.

Cremation gives you more choices for memorializing than ever before. A cremation

memorial can be for personal, family or community use. Be sure you consider a monument strategically located in the traditional cemetery. Today's society is more sophisticated but still includes memorialization with a "remembrance place" which includes a monument. Don't let the memory of your love one become a statistic, through cremation.

This cremation design selections includes designs that range from upright monuments and benches to the companion marker, traditional or contemporary. A final tribute that is reverent and respectful is deserving by your family members. Choose a monument and burial place...today.
