A MEMORIAL DESIGN PRESENTATION
SERIES D201-D276

Journeys Remembered

Life is a journey to be remembered. Future generations should know the influence that our loved ones had on our lives and those of generations to come.

Let us help you create a memorial that tells your story. We are experienced in the creation of appropriate, meaningful memorials that commemorate life and preserve its precious memories.

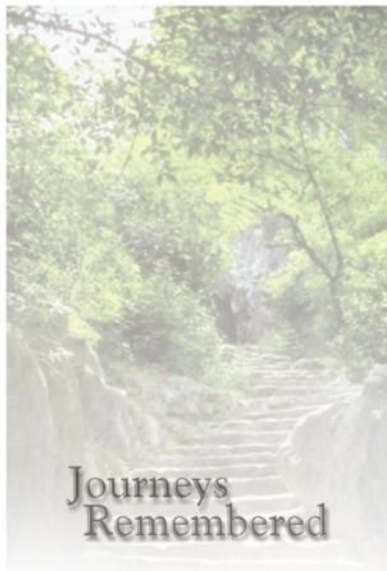

An enduring granite memorial, rich with symbols of our lives, our families, our faith, our work, and our passions, preserves our heritage for future generations.

Optional Markers

Markers are available in many shapes and sizes. While some cemeteries require markers to be of a uniform size and shape, some allow creative contemporary shapes. Be sure to check the regulations in your cemetery before selecting a marker shape or size.

While virtually any size and shape is possible, expect more unusual shapes to take a bit longer to produce and deliver. The price may also be greater when working with a more contemporary shape. Please ask your memorial counselor for information and input during the design and selection process.

Journeys Remembered

How do we communicate the goodness of someone's life, the love she showed for her family, the sacrifice he made for his country, her faith in God, his strength, or the sorrow she felt at losing a husband or child?

There is a simple, beautiful language of symbols for commemorating these lives and experiences. This universal language is the outward, visible means of communicating and revealing the innermost and often hidden reality of who we are.

This carving directory is designed to assist you in selecting the ideal symbols for commemorating the life of your loved one. Each carving has an individual number for easy identification.

Monuments throughout this presentation also feature numbers. When customizing a monument, you may remove and add carvings according to their identification numbers.

Carvings shown are not to scale.

Journeys Remembered

Generations have understood these symbols for which words are inadequate. These symbols can be used effectively to create truly meaningful memorials that convey messages of love, pride, and faith rather than simply placing a grave "marker."

Journeys Remembered

Applying symbols, shapes, lettering, and overall design to create a fitting memorial are tasks that involve a great deal of creativity and can be very fulfilling. While there are many symbols, some thousands of years old, this directory represents some of the best known and widely used symbols in modern memorialization.

Carvings shown are not to scale.

Journeys Remembered

The world around us is full of symbols that represent our lives and those of our loved ones and friends.

While symbols and memorials are sometimes viewed as representations of death, more often they are symbolic of life.

A monument rich in symbolism tells a life's story, and it remains as a constant reminder to future generations.
