

dynaMIC™ model HM200CD

Professional Grade
Lightweight Noise-cancelling Cardioid
HEADSET MICROPHONE

Features:

- Flexible, slim, sturdy 2.4mm gooseneck boom for precise capsule positioning.
- Soft HDPE coated stainless steel for maximum comfort and durability.
- Detachable/replaceable cable
- Ideal for applications requiring maximum durability from a minimally visible microphone.
- Crisp, high intelligibility, ideal for professional presenters and others who require articulate speech reproduction.

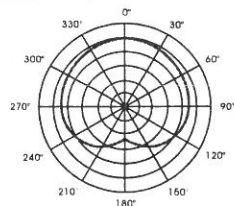

Specification:

- Elements : Back Electret Condenser
- Polar pattern : Noise-cancelling cardioid
- Frequency Range : 100Hz~12,000Hz
- Sensitivity : -66dB ± 3dB
(0dB = 1V/microbar @ 1KHz)
- Impedance : 600Ω ± 30% @ 1KHz
- Operating Voltage : 1.5V~10V DC
- Accessory : Windscreen

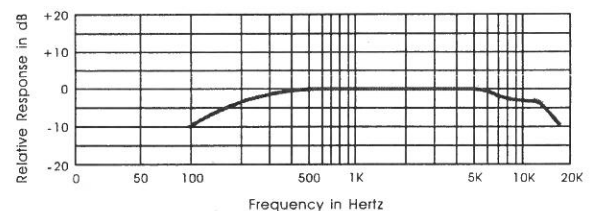

Optional Plug:

	3.5mm, 90° gold-plated pin mono plug		mini-XLR plug
	2.5mm, 90° gold-plated pin mono plug		3.5mm, 90° stereo plug
