CUPERTINO SANITARY DISTRICT BOARD MEETING WEDNESDAY, MARCH 03, 2021

The Sanitary Board of the Cupertino Sanitary District convened this date at 7:00 p.m. This meeting was conducted in accordance with the Executive Order N-33-20 via teleconferencing. The District office at 20863 Stevens Creek Blvd, Suite 100, Cupertino was closed.

1. ROLL CALL:

President Saadati called the meeting to order and the following proceedings were had to wit: Roll call was taken, with the following members in attendance:

Directors present: Angela S. Chen, Taghi S. Saadati, John M. Gatto, William A. Bosworth, and Patrick S. Kwok.

Staff present: District Manager Benjamin Porter, Deputy District Manager Robert Woodhouse, and Counsel Marc Hynes.

District Advisor: Richard Tanaka

Public: Ashley Barnes

Chad Mosley, City Engineer for City of Cupertino, joined the meeting immediately following the Closed Session.

2. PUBLIC COMMENTS:

Ashley Barnes indicated that she was attending the meeting so she could hear the discussions related to agenda item number 10.

The Board indicated that they would move the agenda item forward to occur after the Closed Session meeting.

3. CLOSED SESSION:

President Saadati adjourned the regular meeting session and opened the closed session at 7:03 p.m. Manager Porter and Deputy Manager Woodhouse were excused from the closed session.

A. Conference with legal counsel – Existing Litigation in accordance with government code section Paragraph (1) of Subdivision (d) of Section 54956.9, existing litigation. Name of Case: County Sanitation District 2-3, West Valley Sanitation District, Cupertino Sanitary District, Burbank Sanitary District, and the City of Milpitas v. The City of San Jose, The City of Santa Clara, and Does 1 through 50 inclusive.

Closed session was adjourned at 7:26 p.m. and the regular meeting was called to order. District Manager Porter and Deputy District Manager Woodhouse rejoined the regular meeting. There was no reportable action.

Chad Mosley joined the regular meeting.

CUPERTINO SANITARY DISTRICT BOARD MEETING WEDNESDAY, MARCH 03, 2021

10. STAFF REPORTS:

A. Mr. Nandy Kumar of Vallco contacted Director Chen and requested to speak at a future Board Meeting. Director Chen suggested, with Board concurrence, that discussion of the Vallco Installer's Agreement be adjourned to a meeting when Mr. Kumar can address the entire Board. Manager Porter reported on Vallco including discussion of letters that have been exchanged with Vallco related to a notice of violation that was issued to Vallco as a result of the District's discovery of an excavation at the Vallco Development that exposed a District sewer pipe. The District staff have investigated the exposed pipe and are working with the developer to remedy the situation. The District also requested that Vallco pay fees to the District for continued District engineering reviews and inspection services.

4. MINUTES:

- A. On a motion by Director Gatto, seconded by Director Bosworth, by a vote of 5-0-0 the minutes of Wednesday, February 17, 2021 were approved.
- B. By consensus, the Minutes of Wednesday, February 3, 2021 is to be Noted & Filed.

5. CORRESPONDENCE:

A. The Board reviewed a letter from CSDA requesting support for the Special Services Provide Essential Services Act. Manager Porter is to prepare and submit letters that support CSDA's positions.

6. MEETINGS:

- A. Manager Porter plans to attend the teleconference meeting of The San Jose/Santa Clara Treatment Plant Technical Advisory Committee (TAC) scheduled to be held March 8, 2021.
- B. Director Gatto plans to attend the teleconference meeting of The San Jose/Santa Clara Treatment Plant Advisory Committee (TPAC) scheduled to be held March 11, 2021.

7. REPORTS:

A. Director Bosworth reported on the regular teleconference meeting of the Santa Clara County Special Districts Association held on March 1, 2021.

8. UNFINISHED BUSINESS:

- A. Manager Porter reported on the status of Form 700 filing. Manager Porter reported that all District Form 700s have been prepared and submitted.
- B. Manager Porter reported on COVID-19 updates. Public participant, Chad Mosley reported that Santa Clara County has opened up access for vaccinations to essential workers. Access by essential workers is now limited only by the availability of the vaccine at the distribution sites in the County.

CUPERTINO SANITARY DISTRICT BOARD MEETING WEDNESDAY, MARCH 03, 2021

9. NEW BUSINESS:

- A. The Board reviewed the Preliminary FY 2021-2022 Budget. Manager Porter reported that several projects have been delayed at the San Jose Santa Clara Water Pollution Control Plant, including the dewatering project and the Legacy Lagoons project. As a result, the City of San Jose will be sending lower bills to the District for the remainder of the current fiscal year. The Board asked Manager Porter to take another look at the projected costs for insurance next year, as it was learned at the CSMRA conference that insurance costs are expected to rise next year. Also, consider reducing the costs for elections to zero as there will be no election this year. The Board also asked Manager Porter to review the projected engineering costs and report back to the Board.
- B. Manager Porter presented on the Rate Study Methodology and Revenue. The Board reviewed the summary spreadsheet that displayed all the proposed rate changes for each customer use category and whether the customers were located in the pump zones or non-pump zones of the District. The Board requested Manager Porter to proceed with the rate study using the rates that distribute flows and loads across all customer types, and to include analysis for customers in the pump zones to account for higher cost to operate the pump stations than the gravity sewer systems in the District.
- C. The Board discussed the CASA Conference Call for Abstracts. The Board would like to present to CASA with more experience with the I/I Program and I/I Reduction results in the CUSD system.

10. STAFF REPORTS:

- A. This agenda item was moved up in the agenda to follow item 3. Closed Session.
- B. Manager Porter reported on the flow metering at Homestead metering station.

11. CALENDAR ITEMS:

A. The next regular District Board meeting is scheduled to be held on Wednesday, March 17, 2021.

12. ADJOURNMENT:

On a motion properly made and seconded, at 8:50 p.m. the meeting was adjourned.

Secretary of the Sanitary Board

President of the Sanitary Board

CUPERTINO SANITARY DISTRICT BOARD MEETING WEDNESDAY, FEBRUARY 17, 2021

The Sanitary Board of the Cupertino Sanitary District convened this date at 7:00 p.m. This meeting was conducted in accordance with the Executive Order N-33-20 via teleconferencing. The District office at 20863 Stevens Creek Blvd, Suite 100, Cupertino was closed.

1. ROLL CALL:

President Saadati called the meeting to order and the following proceedings were had to wit: Roll call was taken, with the following members in attendance:

Directors present: Angela S. Chen, Taghi S. Saadati, John M. Gatto, William A. Bosworth, and Patrick S. Kwok.

Staff present: District Manager Benjamin Porter, Deputy District Manager Robert Woodhouse, and Counsel Marc Hynes.

District Consultant: Richard Tanaka

Public: None

2. PUBLIC COMMENTS:

There were none.

3. CLOSED SESSION:

President Saadati adjourned the regular meeting session and opened the closed session at 7:01 p.m. Manager Porter and Deputy Manager Woodhouse were excused from the closed session.

A. Conference with legal counsel – Existing Litigation in accordance with government code section Paragraph (1) of Subdivision (d) of Section 54956.9, existing litigation. Name of Case: County Sanitation District 2-3, West Valley Sanitation District, Cupertino Sanitary District, Burbank Sanitary District, and the City of Milpitas v. The City of San Jose, The City of Santa Clara, and Does 1 through 50 inclusive.

Closed session was adjourned at 7:34 p.m. and the regular meeting was called to order. District Manager Porter and Deputy District Manager Woodhouse rejoined the regular meeting. There was no reportable action.

4. MINUTES & BILLS:

- A. On a motion by Director Gatto, seconded by Director Bosworth, by a vote of 5-0-0 the minutes of Wednesday, February 3, 2021 were approved as written.
- B. By consensus, the Minutes of Wednesday, January 20, 2021 is to be Noted & Filed.
- C. The Board reviewed January payable warrants and financial statements. The Board discussed flume metering and costs to calibrate the meter periodically. On a motion by Director Gatto, seconded by

CUPERTINO SANITARY DISTRICT BOARD MEETING WEDNESDAY, FEBRUARY 17, 2021

Director Kwok, by a vote of 5-0-0, the financial statement and payment of bills were approved as written.

D. Board members will submit their February timesheets to Manager Porter.

5. CORRESPONDENCE:

There was none.

6. MEETINGS:

A. Director Bosworth plans to attend the teleconference meeting of the Santa Clara County Special Districts Association to be held on March 1, 2021.

7. REPORTS:

- A. Manager Porter reported on the teleconference meeting of the San Jose/Santa Clara Treatment Plant Technical Advisory Committee (TAC) held on February 8, 2021. The dewatering capital project at the WPCP will be delayed for another year so this year's capital charges will be reduced.
- B. Director Gatto reported on the teleconference meeting of the San Jose/Santa Clara Treatment Plant Advisory Committee (TPAC) held on February 11, 2021.

8. UNFINISHED BUSINESS:

- A. Manager Porter reported on COVID-19 updates.
- B. The Board reviewed and discussed the budget reallocation (revised). Manager Porter is authorized to make further adjustments to the budget when the final costs for the capital improvements and O&M at the Water Pollution Control Plant are known. Manager Porter will request advance notice of the planned charges for the upcoming year so the District can better develop next year's District budget. On a motion by Director Gatto, seconded by Director Bosworth, by a vote of 5-0-0 the revised budget reallocation was approved.
- C. Manager Porter presented a summary of the Rate Study Methodology. District staff recommended use of the lower cost of service to adjust to the rates for residents in the pump station zones. The adjustment will only account for higher costs due to the operations and maintenance of the District's 17 pump stations, which is a similar approach used by other agencies. District staff will also use a 75% adjustment in the SFR rate for MFR customers. District staff will now proceed with the development of the rate study for the District.
- D. The Board was reminded to submit Form 700 filing.

CUPERTINO SANITARY DISTRICT BOARD MEETING WEDNESDAY, FEBRUARY 17, 2021

9. NEW BUSINESS:

A. The Board reviewed the Board Memo regarding an insurance claim of a stolen pump station generator. On a motion by Director Gatto, seconded by Director Kwok, by a vote of 5-0-0 the Board approved submittal of insurance claim and payment of \$2,000 deductible.

10. STAFF REPORTS:

- A. Deputy Manager Woodhouse reported on Vallco. Deputy Manager Woodhouse presented slides on the overall purpose of the I/I Reduction Program and responded to questions from the Board regarding the draft Installer's Agreement and the I/I Reduction Program. The Board asked for minor revisions to the wording of the Installer's Agreement and asked District staff to investigate whether the I/I Reduction Program can be accelerated. District staff will discuss the draft Installer's Agreement with Vallco and secure their review comments on the document. The Board would like to reconsider the agreement at the next Board meeting.
- B. Manager Porter reported on the monthly maintenance report. One Category 3 SSO was reported in the District and a report was filed with CIWQS.

11. CALENDAR ITEMS:

The next regular District Board meeting is scheduled to be held on Wednesday, March 3, 2021.

12. ADJOURNMENT:

On a motion properly made and seconded, at 9:51 p.m. the meeting was adjourned.

Secretary of the Sanitary Board

President of the Sanitary Board

Item 5.A

CITY OF SAN JOSE ENVIRONMENTAL SERVICES DEPARTMENT SAN JOSE - SANTA CLARA REGIONAL WASTEWATER FACILITY (RWF)

CAPITAL COST ALLOCATION FISCAL YEAR 2021-22

Allocation of capital project costs is governed by the provisions of the Master Agreements for Wastewater Treatment, which require that these costs be allocated proportionally to the agencies based on their treatment plant capacity rights. Accordingly, the attached tables distribute the estimated FY 2021-22 capital project costs to the agencies based on their capacity rights in the 167 MGD plant.

TABLE 1TRIBUTARY AGENCY COST ALLOCATION.

Table 1 contains each agency's share of FY 2021-22 capital project costs. Each agency's cost sharing percentage is a function of two sets of parameters including an agency's capacity percent of the overall RWF capacity (Table 4) and the RWF capacity investment percentage associated with each flow and wastewater strength parameter (Table 5).

TABLE 2FY 2021-22 ESTIMATED CAPITAL PROJECT COSTS.

Table 2 lists the projects for which the agencies will be charged in FY 2021-22.

TABLE 3 ALLOCATION OF CAPITAL COSTS.

Table 3 contains the cost allocation to the agencies based on capacity rights in the 167 MGD plant.

TABLE 4CAPACITY ALLOCATIONS.

Table 4 contains each agency's capacity percent of the overall RWF capacity. These percentages are the basis for allocating capital costs to the agencies on Table 3.

TABLE 5SUMMARY OF DISTRIBUTION OF CAPITAL COSTS TO PARAMETERS.

This table contains the percentages for distributing total capital costs to treatment parameters on Table 3.

(2) Includes Process-related Projects costing more than \$2 million. These projects are allocated to treatment parameters based on the specific-project allocation in the fiscal year following start of design.

(3) Includes (a)Process-related Projects costing more than \$2 million in planning phase and (b) Projects costing less than \$2 million and/or not process-related. These projects are allocated based on the rolling weighted-average of the RWF.

2/21

Environmental Services Department

February 28, 2021

TO: Tributary Agencies

SUBJECT: FY 2021-22 Revenue Program

Attached are the San Jose/Santa Clara Water Pollution Control Plant revenue program forms No. 7 through 12 for FY 2021-22. These forms are submitted to you for your use in preparing your budgets and sewer service rates.

The forms contain the distribution of the preliminary Operating and Maintenance Budget (\$126,095,000) for FY 2021-22 to the tributary agencies. Although these costs are preminary, they are not anticipated to differ materially from the final proposed budget which will be submitted to the Treatment Plant Advisory Committee and to the San Jose City Council Council for adoption.

If you have any questions, please call me 975-2599 or Lillian Nguyen at 975-2567.

Sincerely,

INA Buck

LAURA BURKE Principal Accountant Adminitrative Services Division Environmental Services Department

CITY OF SAN JOSE ENVIRONMENTAL SERVICES DEPARTMENT

SAN JOSE/SANTA CLARA REGIONAL WASTEWATER FACILITY (RWF) 2021-22 REVENUE PROGRAM

The attached revenue program forms were prepared to show the distribution of FY21-22 preliminary Operating and Maintenance budget to the tributary agencies and to provide the parameter allocation percentages for agencies to use in redistributing RWF capital costs and debt service costs to their respective users. The distribution of FY21-22 preliminary capital budget was submitted to the tributary agencies in a separate packet.

The attached revenue program forms contain the following:

- Capital cost (debt service) allocation percentages by treatment parameters (Flow, BOD, SS and Ammonia) by combinations of facilities.
- Distribution of FY 2021-22 preliminary Operating and Maintenance (O & M) costs to the tributary agencies.

CAPITAL COST (DEBT SERVICE) PARAMETER ALLOCATION PERCENTAGES

Since debt-service and capital reserve expenses should be carefully matched to allocation ratios for the appropriate combination of facilities for which the funds were intended, the following forms have been maintained for each agency to use, if applicable, in allocating capital cost (debt service) to the agency's users:

- Form 10A: Parameter allocation percentages for redistributing Pre-1982 debt services (Primary, Secondary and Advance Waste Treatment Facilities)
- Form 10B: Parameter allocation percentages for redistributing Post-1982 through Pre-SBWR debt services (1982 Priority, Intermediate-Term Improvement - 143 MGD & First Stage Expansion -167 MGD)
- Form 10C: Parameter allocation percentages for redistributing SBWR debt services
- Form 10D: Parameter allocation percentages for redistributing FY21-22 capital costs and debt services

OPERATING AND MAINTENANCE COST AND REPLACEMENT ALLOWANCE

Form 12 contains the distribution of the estimated treatment plant O & M costs for FY 2021-22 to the tributary agencies. The form also contains the percentage allocation by parameter for each agency. These percentages are for the agencies' use in redistributing their costs to their resepective users. The Distribution of Replacement Allowance (Form 12B) has been omitted for FY 2021-22 because the intent is to recommend to the Treatment Plant Advisory Committee that a temporary moratorium be placed on the collection of the renewal and replacement allowance. Equipment replacement costs will be funded from reserves.

The O & M cost distribution to the tributary agencies was based on the volume and strength of sewage as reported by the agencies and shown on Form 11.

The FY 2021-22 Preliminary Operating and Maintenance cost distribution is as follows:

AGENCY	Percentage	O & M (rounded)
San Jose	63.450	\$80,007,400
Santa Clara	15.332	19,332,700
West Vallley Sanitary District	9.192	11,591,200
Cupertino	5.384	6,789,100
Milpitas	5.458	6,881,900
County Sanitation District 2-3	.955	1,203,600
Burbank	.229	289,100
Total	100%	126,095,000

Subject:	Notice for the April 7, 2021 Public Hearing on the Proposed FY 2022 LAFCO Budget
Date:	Thursday, March 11, 2021 10:18:57 AM

To the Clerk of the Board of Supervisors, City/Town Clerks and Independent Special District Clerks:

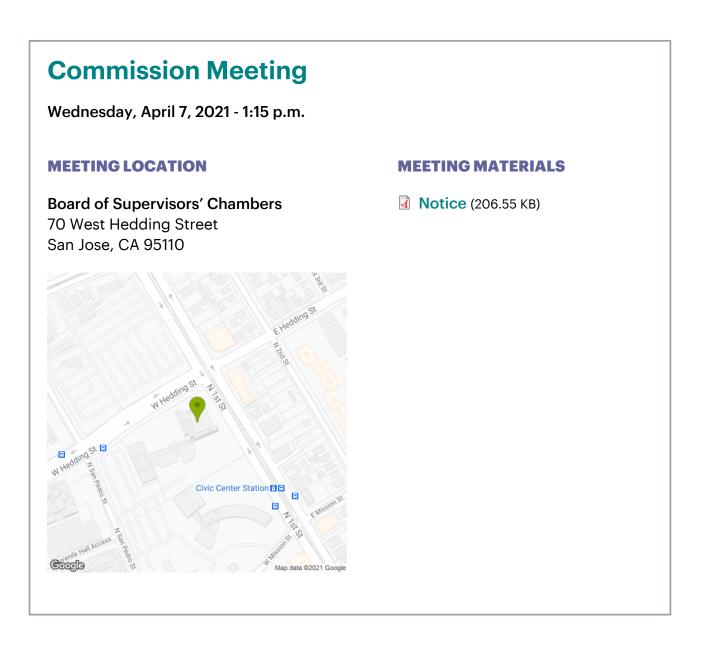

The Notice for the April 7, 2021 LAFCO Public Hearing on its Proposed FY 2022 Budget has been posted on the web at this link below. Please share the Notice to the members of your governing bodies. Thank you very much.

https://santaclaralafco.org/meetings/commission-meeting-2021-04-07-201500

NOTE: In light of COVID-19 response measures from the Governor of the State of California and the Santa Clara County Public Health Department, commencing March 17, all staff of Santa Clara LAFCO are under a "Shelter in Place" directive, working remotely from home. If you have an inquiry, we encourage you to contact us by email at <u>LAFCO@ceo.sccgov.org</u>.

Thank you, Emmanuel Abello Commission Clerk LAFCO of Santa Clara County 777 North First Street, Suite 410 San Jose, CA 95112 (408) 993-4705 Twitter: @SantaClaraLAFCO www.SantaClaraLAFCO.org

Helen Chapman Cindy Chavez Matt Mahan Russ Melton Terry Trumbull

Executive Officer Neelima Palacherla

NOTICE OF PUBLIC HEARING

Local Agency Formation Commission of Santa Clara County (LAFCO)

The Local Agency Formation Commission of Santa Clara County will hold a public hearing on Wednesday, April 7, 2021 at 1:15 p.m., or as soon thereafter as the matter can be heard, to consider:

- 1. Adoption of the Proposed Work Plan and Budget for Fiscal Year 2022
- 2. Dissolution of Inactive Special District Reclamation District No.1663

Staff reports and related materials for these items will be available on the LAFCO website at SantaClaraLAFCO.org by April 2, 2021. All interested persons may attend the meeting as provided for on the agenda or may submit written comments which should be filed one day prior to the hearing by email to LAFCO@ceo.sccgov.org.

In response to COVID-19 and the shelter-in-place orders, and consistent with the Governor's Executive Order N-29-20, the meeting will be held as a virtual meeting. More information regarding public access to the meeting will be available with the publication of the meeting agenda.

March 11, 2021

Cupertino Sanitary District

Item 9A

To: Board of Directors
From: Benjamin Porter, District Manager-Engineer
Date: March 17, 2021
Re: DISTRICT RATE STUDY FOR FY 2020-21 THROUGH FY 2025-26

Summary:

Staff has completed the preliminary Cupertino Sanitary District Rate Study for the next five years evaluating financial impacts of no rate change, a rate increase to increase revenue, and changes to the District's rate structure in accordance with the Rate Study Methodology Workshops that have taken place over the last few months. This analysis will provide the necessary documentation for the Board of Directors to make the decision regarding a rate adjustment.

Background:

In March 2021, the District received the San Jose/Santa Clara Regional Wastewater Facility's Operations and Maintenance budget for Fiscal year 2021-2022 and an updated budget for the next five years for the treatment plant capital improvements.

Sewer service rates for the other agencies tributary to the San Jose treatment plant, as well in the surrounding Bay area were investigated. A comparison of the sewer rates for the Bay Area is provided below in Figure 1.

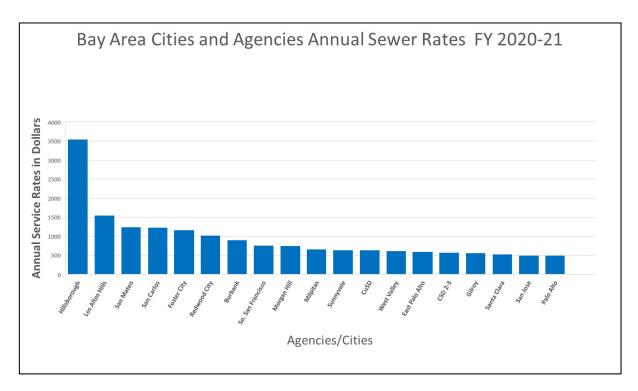

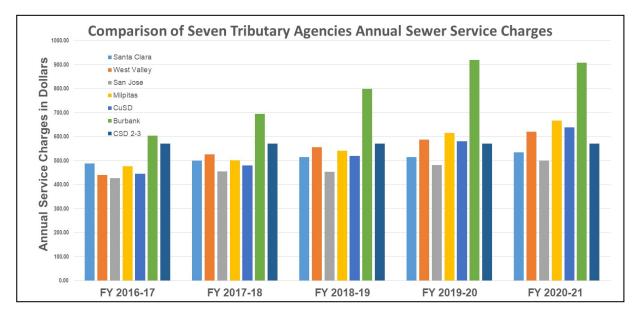

Figure 1. Bay Area Sewer Service Rates

All tributary agencies served by the San Jose/Santa Clara Regional Wastewater Facility are on the low end of service charges, when compared to the rest of the Bay Area, with the exception of the Burbank Sanitary District, which is more toward the middle of the range.

Figure 2, below provides the comparison of the seven tributary agencies service rates for 2020-2021. Cupertino Sanitary District is shown in dark blue, third from the right, and is lower than Burbank and Milpitas. West Valley has an approved rate increase that will make their Single-Family Rate greater than CuSD's.

Analysis and Results:

For this rate study analysis, the following assumptions/criteria have been used:

- 1) Assume pay as you go strategy for the San Jose/Santa Clara Regional Wastewater Facility capital improvements since there are no financing opportunities available from City of San Jose.
- 2) The future expenses for the District's operation, management and maintenance is using this fiscal year's actual expenses to project the next four years of expenses.
- 3) Included \$446,000 for the anticipated invoices from the City of Santa Clara and the City of San Jose in 2022-2023 for the joint interceptor improvement costs and O&M costs.
- 4) Delayed Dewatering CIP project at the Treatment Plant to be encumbered in 2021-2022.
- 5) Delayed Legacy Lagoon Project for at least two years.
- 6) The District received a \$10 million loan to pay for Capital Projects and that money was expended for the 2019-2020 Treatment Plant Capital Improvements. The annual loan payment of \$1.2 million, split up into two payments is included in the analysis.
- 7) For the District CIP, Staff assumed a \$500k budget allocated each year to accommodate modest improvements. Further execution of Capital projects would require funding from development projects.

The District performed four alternative analyses for revenue increases without any changes to the rate structure: 0%, 5%, 10%, and 5% each year for the next five years. The cash flow projections had the following results:

- 0% Increase: If the District were to not increase rates for the next year, the District would be able to cover its expenses for Fiscal Year 2021-2022 and 2022-2023. However, when major Treatment Plant costs occur in 2023-2024, the District would not have sufficient cash reserves. Based on the Cal Bank loan agreement, it requires the District to maintain 50% of the required annual payment as a reserve. With zero revenue increase, the District would not be able to meet this loan requirement as well as potentially not have sufficient cash to pay the loan amount, unless significant revenues are generated from development fees.
- 5% Increase: With an 5% revenue increase next year, the District would be able to pay its bills through 2023-2024 but additional revenue generation would be required to sustain the district beyond 2023-2024. The District would be operating on negative funds starting in October 2024. A 5% rate increase still does not allow it to maintain adequate reserves beyond 2023-2024.
- 3) *10% Increase:* With a 10% revenue increase, the District would be able to pay its bills as projected through 2023-2024.

4) *5% Revenue Increase each year for five years*. With a 5% per year revenue increase each year for the next five years, the District would need to delay payments to San Jose to keep a positive cash position through 2024-2025 and would be projected to be out of cash in 2025-2026.

In addition, analysis was performed based on the series of rate study methodology workshops. Theses workshops considered making changes to the District's rate structure. The first change considered was reclassifying residential users into different categories based on Single-Family Residential, Multi-Family Residential, and Accessory Dwelling Units. Subsequent workshops considered the impact that the residential and non-residential users had on the collection system and the associated treatment plant costs based on flow and load and also considered the additional cost of service for those users who require pump stations to collect and convey the wastewater they generate.

The first part of this rate study analysis considered the requirement to raise revenue to meet the District's financial needs based on keeping the District's rate structure unchanged. Changing the rate structure would impact users based on how the user is classified regardless of whether or not a revenue increase is required (the rates for some users would increase, while others would decrease). The results of the analysis for 0% revenue increase are included in the attached rate study. The main impact on residential users is that multi-family units would pay a reduced service charge, and residential users in the pump station zones would pay an increased charge. The rates for most non-residential users would also increase, with users in the pump zone seeing a greater increase.

If a revenue increase is required, the revenue generated from each user would increase beyond the base rates determined by the methodology workshops. An analysis was also performed to determine what the rates would be for each user type based on a 5% increase in revenue requirement. This revenue would be the same as the 5% revenue increase described previously. Each user would see a 5% increase in its rate based on baseline established during the establishment of the new baseline rates. The resulting rate increase for each user with a 5% revenue increase are provided in the attached rate study.

Staff Recommendation:

Based on this analysis, staff recommends considering a 5% revenue increase for next fiscal year (FY 2021-22) to provide a sound financial plan for the District and flexibility moving forward. Additional rate increases are likely to be needed down in the future unless treatment plant costs change substantially from the current projections. There is substantial uncertainty regarding future treatment plant costs as projects have been shifted in the timeline; however, projects are only being delayed and total cost projections have been increasing. The Board should also consider whether or not a restructuring of the rates should occur at this time.

Board Action:

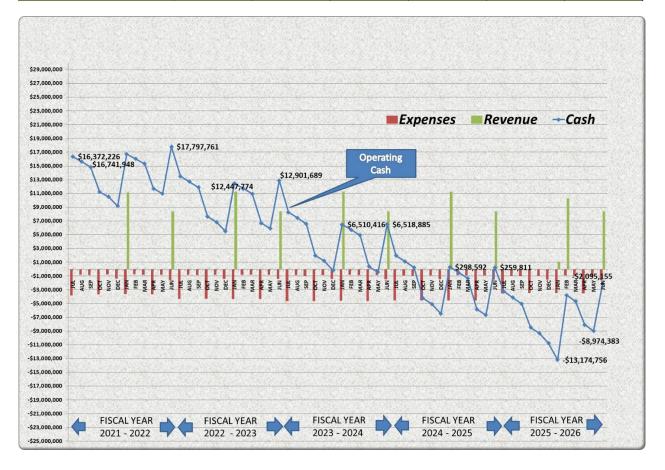

Attachment 4 includes a Resolution No. 1327 to set a public hearing date for May 19, 2021 if the board makes the decision to consider a rate adjustment.

RESOLUTION NO. 1327

A RESOLUTION OF THE SANITARY BOARD OF THE CUPERTINO SANITARY DISTRICT OF INTENTION TO CONSIDER AN INCREASE IN SEWER SERVICE CHARGES; ESTABLISHING THE TIME AND PLACE FOR A PUBLIC HEARING ON THE PROPOSED INCREASE; AND PROVIDING FOR THE GIVING OF NOTICE OF SUCH PUBLIC HEARING AS REQUIRED BY LAW

WHEREAS, the Cupertino Sanitary District ("the District") last increased the sewer rates charged to its customers in 2020; and

WHEREAS, the District has been informed by the City of San Jose that equipment replacements, upgrades, and capital improvements to the sewerage treatment facilities utilized by the District will require significant capital expenditures as part of the Treatment Plant Master Plan Implementation and that the District's share of the cost to install these upgrades and improvements will total approximately 33.9 million dollars over the next five years; and

WHEREAS, to date, the City of San Jose has informed all tributary agencies to pay cash for the treatment plant improvements; and

WHEREAS, the cost the District pays to City of San Jose is approximately 60% of the total District's expenses; and

WHEREAS, in anticipation of the cash requirement to pay City of San Jose, the District has secured a ten-million-dollar loan late in 2019. This ten-million-dollar loan has now been exhausted; and

WHEREAS, District has a commitment to pay this loan over the nine years; and

WHEREAS, the current sewer service rates charged by the District are inadequate to cover the District's operating budget and capital expenditures and the share of costs that will be allocated to the District for upgrades and improvements to the sewerage treatment facilities will further increase the budget shortfall; and

WHEREAS, based on District Staff analysis, a proposed schedule of increased sewer service charges, a maximum amount not to exceed five (5) percent, will be presented to the Board at the public hearing; and WHEREAS, it is the intention of the Sanitary Board to consider adoption of an ordinance to implement such increased sewer service charges, subject to compliance with the requirements of Proposition 218; and

WHEREAS, prior to the adoption of an ordinance increasing the sewer service charges, the District must conduct a public hearing, with notice thereof being given to all persons subject to the increase, and

WHEREAS a proposed form of Notice of Public Hearing has been presented to the Sanitary Board, a true copy of which is attached hereto as Exhibit "A" and incorporated herein by reference,

NOW, THEREFORE, BE IT RESOLVED by the Sanitary Board of the Cupertino Sanitary District as follows:

1. The District Counsel is instructed to prepare an Ordinance providing for an increase in the District's sewer service charges.

2. A public hearing to consider such Ordinance is hereby scheduled for 19th day of May 2021, commencing at 7:00 p.m.

I hereby certify that the foregoing is a full, true and correct copy of a resolution duly and regularly adopted by the Sanitary Board of the Cupertino Sanitary District, at a meeting thereof held on the 17th day of March 2021, by the following vote:

AYES, and in favor thereof, Members: NOES, Members: ABSENT, Members:

Secretary, Cupertino Sanitary District

APPROVED:

President, Cupertino Sanitary District

EXIBIT A

NOTICE OF PUBLIC HEARING: PROPOSED SEWER SERVICE AND USE CHARGE RATE INCREASE

On **May 19, 2021, at 7:00 PM**, the Cupertino Sanitary District Board is scheduled to conduct a teleconference public hearing on proposed increases to the Sewer Service and Use Charges via teleconference in accordance with Executive Order N-33-20 (Call-In Number: 1-866-899-4679 Access Code: 251566821). These charges are paid by residential, commercial, institutional, and industrial users of the sanitary sewer system.

At the hearing, staff will be proposing a 5% rate increase for FY 2021-2022. If the District Board adopts this proposal, there will be no annual impacts and rates will remain the same as follows:

Ammonia (NH3)	\$4,457.95 per 1,000 lbs /year	\$4,457.95 per 1,000 lbs /year

While the District has made every effort to control and lower its operating and maintenance costs, the City of San Jose wastewater treatment costs continue to rise due to San Jose-Santa Clara Regional Wastewater Facility funding needs. The Plant Master Plan identifies \$1.6 billion to \$2.2 billion of critical improvements to rebuild the aging plant infrastructure and meet stricter regulations. The District's share of the cost for these upgrades and improvements is estimated to be \$38.1 million over the next five years. In order to cover the District's normal operating and capital improvement costs and the District's share of the cost to upgrade and

improve the wastewater treatment facilities, the Sanitary Board will consider sewer service charges as great as shown above. The Board may also determine that a small increase is necessary to meet current and future needs.

Protests must be in writing and received by the District prior to the close of the public hearing on **May 19, 2021**. Indicate the Assessor's Parcel Number(s) of the property(ies) you own that are subject to the proposed rate adjustment. Submit written protest to the District Clerk in the form of a letter, fax, or e-mail at:

20863 Stevens Creek Blvd. Suite 100, Cupertino, CA 95014 Fax (408) 253-5173, email <u>bporter@cupertinosanitarydistrict.org</u>
