## Drs. Ray & Vicki Waters

### H.E.A.L.T.H. & W.E.A.L.T.H.

This ministry is fueled by passion and a zeal for ministering to husbands and wives, in the area of intimacy...first with God and then with one another. Husbands and wives should learn how to love, laugh, and enjoy each other.

## “To Equip, Inspire, and Encourage Couples to ENJOY and LOVE Each Other While Growing in the Grace of God.”

Drs. Ray and Vicki Waters are the first ones to say that they were two imperfect people joined together by God. In 2013, they founded H.E.A.L.T.H. & W.E.A.L.T.H., a ministry birthed from the joy, pain, and valuable lessons learned through marriage. It focuses on married couples who also want to have strong and fulfilling marriages.

When the ministry began, the meetings were held every third Saturday at their home church of Lighthouse Christian Center in Highland Springs, Virginia. While the number attending in the early days was small, the Waters were not discouraged by the small crowd. They faithfully continued to press on knowing that greatness was to come.

Since then, God has increased the number in attendance at the meetings exponentially! Using their dynamic, transparent, and engaging style, Drs. Ray and Vicki Waters have counseled and married many couples, and have ministered at several conferences, workshops, and seminars on such teachings as *His Role/Her Role*, *Helpee/Helper*, *The*

*Triangle*, *Between the Sheets*, and *Add Ons*. They have had their own show on Comcast Cable, have been featured on *The Sharvette Mitchell Radio Show*, and are currently writing a book.

You will certainly be blessed by the unique blend of the teaching of the word of God and the humor that Drs. Ray and Vicki Waters use to deliver it. They believe this is the bridge that allows them to effectively reach those couples who want a deeper, more intimate relationship with each other, while also seeking a deeper, more intimate relationship with God.

Drs. Ray and Vicki Waters are blessed to have two adult children and two grandchildren.
