Why ITD Products are recommended over all others?

ITD does not like to ship water thus lowering weights and shipping costs.

ITD has prompt shipping, diverse products and friendly, helpful customer service.

ITD only sells to Authorized Distributors. We only sell our products for resale.

We will not sell direct to the end user.

TERMS

- **Distribution Policy**

Our products are offered for sale on a selected distribution basis. We will only sell our products for resale. We will not sell direct to the end user. Distributorships may sell "ITD, INC." branded products, additionally we offer private label services to promote your business name on high quality chemicals. We offer coast-to-coast coverage with the largest L.T.L. carriers (less than truckload) in the nation and the ability to drop ship products directly to your customer's front door.

- **Products**

We concentrate all of our products to the maximum limit of solubility. We don't like to ship water. When we say, "concentrate", the product is to be cut or diluted before it is sold to your customers. Read the instructions carefully before preparing these products. Labels and SDS's for the ready-to-use (R.T.U.) products are available from our office. We use the phrase "ready-to-use" to indicate that we have diluted the product to a strength that is most easily sold to your customers. This may be half strength, quarter strength, or less. The choice is yours" "ready-to-use" for convenience or "concentrate" for economy.

- **Credit Terms**

All invoices are due and payable in 30 days. Any invoices over 30 days will be subject to financing charges calculated at 18% APR. Customers with invoices over 45 days, from the date of invoice, will be notified that any orders placed or in house will be held until all the past due accounts are cleared.

- **Freight Allowances**

On invoices of \$4,000.00 or more, we will allow up to 7% of the paid invoice amount toward the freight cost of that shipment on product only.

If the freight costs are less than the allowed amount, only the actual freight charges will be allowed. No allowance will be granted to any distributor that has an outstanding invoice over 30 days old. A copy of your freight bill must be attached to the payment of the invoice for credit.

- **Ordering Information**

Please order products by item number. This item number can be found listed under each product name. At the bottom of each product category page is a table listing the packaging configurations. Each item number has two parts; the first is the "formula/product" number, and the second is the packaging configuration description.

Example:	4 Gallon Case	=	Product#-01cs
	5 Gallon Pail	=	Product#-05
	55 Gallon Drum	=	Product#-55
	One Drum Kit	=	Product#-1DK
	Five Drum Kit	=	Product#-5DK
	Ten Drum Kit	=	Product#-10DK

Industrial

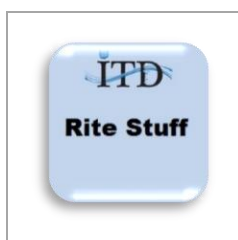

Decrease your shipping costs.

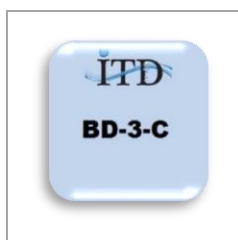

Many ITD products are shipped as Super Concentrates, Drum Kits or Ready-To-Use (RTU) can be shipped upon request.

Economy Degreasers

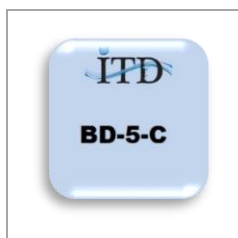

Rite Stuff An economical butyl high quality cleaner/degreaser that contains an organic solvent to help dissolve grease, oil, mold, mildew, soap scum etc. It is also an excellent pre spray for use on extremely difficult cleaning jobs. A high quality cleaner that won't break the bank. Biodegradable.

Butyl Degreasers

BD-3-C is a 3% butyl degreaser with caustic. Formulated for economy it contains an organic solvent to help dissolve grease, oil, mold, mildew, soap

BD-5-C is a 5% butyl degreaser with caustic contains 25% more solids than BD-3-C and is highly concentrated for heavy-duty applications.

One Drum Makes Two

BD-6 is designed as a 6% butyl, non-caustic cold water degreaser. This multi-purpose product is a bug remover, degreaser, truck wash and all-purpose cleaner.

Industrial

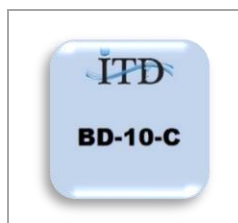

Decrease your shipping costs.

Many ITD products are shipped as Super Concentrates, Drum Kits or Ready-To-Use (RTU) can be shipped upon request.

Butyl Degreasers - continued

BD-10-C is a 10% butyl degreaser and contains a very soft caustic formula that enhances its effectiveness. It works well in cold or hot water, high pressure washing of mobile homes, homes, RV's, trucks, trailers, & buildings.

Excellent bug remover and gutter cleaner.

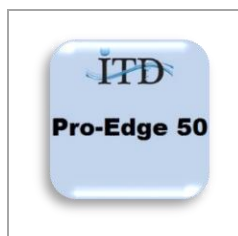

One Drum Makes Two

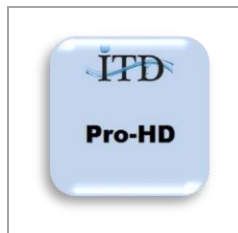

Big Dog is a premium, high quality, concentrated butyl/degreaser that contains an organic solvent. It contains double the butyl in BD-10-C and twice the caustic of BD-5-C. Grease, oil, mold, mildew, and soap scum, cannot stand up to this powerhouse.

One Drum Makes Two

PRO-Butyl Degreasers

Pro-Edge 50 butyl based degreaser can be used to clean many hard surfaces such as in hotels, motels, kitchens, garbage areas, maintenance departments, pool equipment, heavy equipment, stadiums, arena seats & equipment, automobile detailing, fleet vehicles, road repair equipment, construction, boats, ships and marine equipment.

Pro-HD Vehicle wash & degreaser contains a complex formulation of butyl, caustic, and contains a unique water conditioning package that enhances cleaning to protect interior plumbing of cleaning equipment coils.

Bleach Additives

Bleach Add Biodegradable, high foaming formula is built into an all in one high tech “bleach cloaking” process. BLEACH ADD has fantastic wetting properties that help create more foam that is longer lasting, thus bringing greater surface time efficiency.

Bleach-Thickener is an additive that thickens 12.5% bleach to allow maximum dwell time on vertical surfaces. Bleach effectiveness will accelerate as this product contains an extra penetrating surfactant.

Lemon-Add is a product that will mask the odor of bleach with a lemon freshness. Lemon-Add increases the bleach’s effectiveness and a characteristic of the product is that it creates suds that help the product to maintain a longer dwell time.

This product should be mixed at a rate of 1 part chemical to 10 parts water, but can be mixed stronger if desired. This product will work in cold water as well as hot water, and rinse free at any temperature.

Wood Brightener is a high quality neutralizer specially designed for all wood decks and other wood surfaces. It neutralizes decks that have been cleaned with caustic. That eliminates ghosting and peeling. Additionally, it can be used to remove rust stains on concrete or other hard surfaces.

Roof Cleaning

Roof Cleaner is designed to clean asphalt and fiberglass shingles. May be used on wooden decks and fences also. Roof Cleaner will work in cold water as well as hot.

SPECIALTY

Decrease your shipping costs.

Many ITD products are shipped as Super Concentrates, Drum Kits or Ready-To-Use (RTU) can be shipped upon request.

Coil Maintenance

Dyna Coil Detergent Additive is a highly concentrated additive especially formulated with the highest quality raw material possible to promote the rapid deterioration of the crystalline structures that form under high heat and hard water conditions.

Super Coil Descaler is an inhibited Hydrochloric acid solution that when used as directed will effectively remove scale and rust from the interior of steam cleaner heating coils. This product must be circulated, neutralized, and disposed of properly per the instructions that are included with the product.

Rust Remover

Mud Away is a complex blend of acids designed to manage red mud, tire tracks, and rust stains from concrete slabs, blocks and brick surfaces. For concrete walls, a thickened version capable of vertical cling keeps Mud Away on the vertical surface to completely remove most stains.

Rust Stain Remover is a high-quality cleaner specially designed for rust removal. It works equally well on concrete, masonry and other exposed hard surfaces. It will remove rust stains created by sprinkler systems or steel structures.

DISTRIBUTOR & PRIVATE LABEL PACKAGING

ITD only sells through a network of Authorized Distributors and Resellers. Our Distributors have the peace of mind knowing that they never have to compete with their detergent supplier.

Let ITD help you build your own exclusive brand using Private Labels. Our labeling department can design your label with the product name and logo of your choice. Build your brand with exclusivity to your company. The information, technical and S.D.S. "Safety Data Sheets" can all be linked to YOUR BRAND!

Private Label Advantages

Brand loyalty: Private branding allows the use of your logo, which creates a marketing identity and promotes stronger customer recognition and loyalty.

Custom Tailored: The packaging and labels can be tailored to meet YOUR needs, including product name, direction use, description, company's logo and contact information.

Control: Private labeling allows more control over pricing, marketing, sales and distribution. YOU get to make the rules.

Your Logo: Supply us with your logo and we can take care of the rest. We will use this to create a prototype of your label, which we send to you for approval. Once a design is finalized, place an order and your products will arrive, ready to sell or we can drop ship on your behalf.

Private Label Costs

There is a \$50.00 one-time fee to join the ITD Private Label Program and this includes S.D.S "Safety Data Sheets" customized to your brand.

DESCRIPTION:
This product is designed to safely clean cars, pick-ups, and other vehicles. It will clean painted surfaces without damage. This product will not remove waxes, finishes, or new car sealants. It will work in cool water as well as hot water, and rinse free at any temperature. Designed for heavy duty cleaning both at drive-through car wash.

DIRECTIONS FOR USE:
For car washes, use the following dilutions: SELF-SERVICE: Premix 1 part soap to 10 parts water and meter solution at 1:20. FULL-SERVICE (IN-CAR/CAJETS): Premix 1 part soap to 20 parts water and meter solution at 1:10. FULL-SERVICE (DISC/WASH): 1:100. Each day after charging, add 1 to 2 quarts depending on soil load in reclaim. For hand car washing use 1 to 2 ounces of chemical per bucket of water.
For use in hot pressure washers, apply to the surface at the rate of 1 part cleaner to 200 parts water. For use in cold pressure washers, use at the rate of 1 part cleaner to 100 parts water. When cleaning with pressure washers, always apply cleaning solutions from the bottom up on a dry surface. Always detail clean from the bottom up and rinse from the top down. DO NOT ALLOW TO DRY ON SURFACES. ALWAYS RINSE THOROUGHLY.

CAUTION: Do not allow to freeze. Do not store at temperatures above 120°F. Keep out of the reach of children. Use eye, face and hand protection when handling. For industrial use only.
EMERGENCY FIRST AID: EYES: Immediately flush with large amounts of water for at least 15 minutes. (Lift upper and lower lids occasionally). Get immediate medical attention. SKIN: Immediately flush exposed area with water for at least 15 minutes. If embolism occurs, get medical attention. INHALATION: Remove individual to fresh air. If symptoms persist, get immediate medical attention. INGESTION: Do not induce vomiting. Gulae by giving water and fruit juice. Get immediate medical attention.

CONTAINS: No hazardous ingredients
NFPA/WHMIS: Health - 1, Flammability - 0, Reactivity - 0
Protective Equipment - 2
