## Welcome back

It has been wonderful to see all students back at school this week with many holiday wintery adventures shared. Term 3 can be a wonderful time to see student growth as they are often very familiar with the school routines and expectations and all the important foundation work from Semester 1 really starts to click and is ready to be built upon. I know each team has many interesting ideas planned to support each child with their learning as usual.

## Thank-you

I would like to thank all the parent/carers and teachers for their efforts and commitment towards parent/teacher interviews last term. It was great to see such a positive response from most families showing the value and commitment made to ensure communication is effective. We value families input. Although this is a formal process that occurs twice a year, families are more than welcome to come in for an interview or chat at any time that is convenient for you to ensure we are all working on the same team towards the same goals.

## Incursions

We recently had a program delivered at school called Engineers Without Borders. This was a 1 hour session for children from grades 3 – 6. Students were given the opportunity to learn about natural disasters and building sustainable houses that cater for these events. In week 3 we will be having another Nexus Arts performance from Richard Schols called 'The magical world of crazy science'. These programs offer a great support to our existing programs, specifically our Science program which has commenced this semester with Miss Bradbury.

## Parking

Thank-you to everyone who is making drop off and pick up times run smoothly. Just a reminder that the first car park at the front of our school is a disabled car park and should be left for those who need it.

## Take care

We are aware of a variety of viruses floating around our community still. Each child should have brought home another box of RA tests. Some children did comment about how many they already had at home. Please pass these tests onto family members (particularly the elderly) neighbours and friends if you feel the need. It is important that children are still doing the tests whenever a symptom presents before attending school, so ensure you are protecting your family first. It is also a requirement that all family members living with a positive member must test 5 times of the 7 from the week of isolation.

## Masks

It is a requirement that everyone above the age of 8 travelling on public transport wears a mask. Therefore, we are reminding children who are bus travellers that they must wear a mask to and from school each day. Please get in contact with the school if you need help acquiring masks for this purpose. At this stage it is a recommendation that masks are worn indoors.

Many thanks

Jane Langley.

DAY	EVENT	INFORMATION
<b>JULY</b>		
20th	Regional Soccer	Our team of 10 senior boys will be representing EPPS at regional level in Sale.
20th	Nexus Arts	Crazy science
<b>AUGUST</b>		
4th	Gr 3 - 6 Athletics Day	To be held at Howitt Park. Additional information & permission slips will be provided on uEducateUs.
