PRODUCTS

A wide variety of delicious drinks, manufactured with prime fruits grown in Vietnam and Europe, cold pressed or pasteurised, not from concentrate, no added sugar or sweeteners, to give the best quality and freshness. We use all the pulp inside the fruit, just the skin and the seeds remain after the process so there are good benefits and no waste of materials.

The fruit and shell are small and the water inside is sweeter than coconuts cultivated in other regions. The quality of the Green Xiem coconut is different from others in terms of nutritional content.

COCONUT & CHERRY

Romantic combination!

Feel a drop of Vietnamese sun and fruit taste grown with love...

The colour of the coconut water and cherry juice is a beautiful warm blush pink and the coconut sits alongside the cherries perfectly, tempering their slightly sweet taste, slightly tart nature with a touch of tropical creaminess.

BonSU® 99% melon juice is made from the humble cantaloupe (rock melon) and may not get as much respect as other fruits, but it should. This tasty, although odd-looking melon, is packed with nutrients. Instead of thinking about grabbing a melon each time you are in your grocery store, you can choose BonSU® sparkling melon juice. Adding fruit of any kind to your diet is beneficial. BonSU® melon, which uses a variety of muskmelon, is a particularly good choice. A soft peach-coloured flesh that has a distinctive aroma and sweet smooth musky flavour.

BonSU®

MANGO

The royal juice!

Feel a drop of Vietnamese sun and fruit taste grown with love...

BonSU® 99% mango juice is made from a special kind of Xoài cát mango fruit. This is the best mango distinguished by its aroma, flavour, and sweetness. Did you know that there are more than a thousand mango varieties? BonSU® Mangoes are grown mostly in southern Vietnam's province, Dong Thap. This mango is a delightful, delicious, and exotic fruit, that has benefits for everyone! It is hard to find another fruit so rich in flavour.

ALOE VERA

*In some parts of the world,
the combination of honey and aloe vera is

SPIRULINA & GINSENG DRINK WITH HONEY

Spirulina is a type of bacteria that grows in water, and it's often called blue green algae. It might not seem like an obvious choice of ingredient, but it's packed full of nutrients and a range of health benefits.

Ginseng is an herbal plant that has been used for thousands of years in Eastern medicine. It's claimed to improve fatigue, performance, fertility, cognition, and even prevent and fight cancer. It has antioxidant and anti-inflammatory effects.

CELERY & APPLE JUICE DRINK WITH HONEY

Immunity - 97% Celery & apple juice drink with honey

I've always maintained the notion that a truly tasty, healthy fresh-pressed juice makes you sing from the inside, out. This combination of ingredients really hits the spot and is a great green juice recipe to keep as a classic "go-to" juice. The sweet apples, with the subtle saltiness of the celery, and sweet honey and healing they need. I love that I can flood my body with nutrients that I probably (definitely) wouldn't get in any other meal throughout my day.

Celery and Apple juice is a healthy drink. The sweet and sour combination of ingredients makes a stimulating drink supported by nutritional elements.
