Four Months After the 2020 Election in Georgia, Over 400,000 Absentee Ballots are Missing Legally Required Chain of Custody Documentation, Yet Biden Was Given the State by 12,000 Votes

- Georgia still hasn't come up with over 400,000 legally required chain of custody documents for predominantly Joe Biden ballots in the 2020 election. But they had no problem claiming Biden won the election by 10,000 votes.
- Four months after the November 3, 2020 presidential election, state and county officials in Georgia have failed to produce chain of custody documents for an estimated 404,691 vote by mail absentee ballots deposited in drop boxes and subsequently delivered to county registrars for counting. As of March 3, only 56 of Georgia's 159 counties have provided ballot transfer form data to *The Georgia Star News*. The number of absentee by mail ballots delivered to registrars in those 56 counties total only 195,309, or 32.5 percent, of the estimated 600,000 absentee vote by mail ballots deposited in drop boxes and delivered to county registrars and counted in Georgia's 2020 presidential election. In other words, there is no chain of custody for 67.5 percent - an estimated 404,691 - of the estimated 600,000 absentee vote by mail ballots deposited in drop boxes and delivered to county registrars and counted in Georgia's 2020 presidential election. The 2020 presidential election outcome in Georgia was decided by fewer than 12,000 votes - about three percent of the 404,000 absentee vote by mail ballots deposited in drop boxes and delivered to county registrars where they were counted.

Forget Cancel Culture,
I think it's a sham.
I do not like it,
Uncle Sam-I-am.

Ignoring achievements
in the name of the Woke,
and cause more division
with the fires they stoke.

Take history out of context
is now the new game.
Not looking for justice,
just someone to blame.

Today, it's a book,
so watch what you do.
One day in the future,
they may cancel you.
