No, the British Empire didn't just "make mistakes", with a few massacres here and there. They committed genocide on several continents, orchestrated famines that killed tens of millions of people, and led a human trafficking cartel for 200 years. The violence was systematic.

## MEMES

Actress Hedy Lamarr was once dubbed 'the most beautiful woman in the world.' She was also a mathematician and inventor of frequency hopping spread spectrum, a technology used for Bluetooth and Wifi. She received a star on the Hollywood Walk of Fame in 1960, but it wasn't until 2014—fourteen years after her death—that she was inducted into the National Inventors Hall of Fame. She spent her life wishing people would notice her brain instead of just her beauty.
