

Kissinger Quote from a speech to the WHO Council on Eugenics, February 25, 2009:

"Once the herd accepts mandatory vaccinations, it's game over. They will accept anything – forcible blood or organ donation – "for the greater good". We can genetically modify children and sterilize them --- "for the greater good". Control sheep minds and you control the herd. Vaccine makers stand to make billions. And many of you in this room are investors. It's a big win-win. We thin out the herd and the herd pays us for extermination services...."

Norway reclassifies Covid-19: No more dangerous than ordinary flu

Covid-19 is treated in the mass media as a very dangerous disease in the face of which mass vaccination and severe restrictions for the whole society are applauded despite few deaths beyond the risk groups. But in Norway, it has now been decided to treat it like other respiratory diseases, such as influenza or the cold virus, because according to the Norwegian Institute of Public Health it is no longer more dangerous than these.

I can't possibly put this in simpler terms.

This bride's father passed away and donated his heart. The man who received the transplant walked her down the aisle.

THE SIZED

DID YOU KNOW?

Not a single engineer made it off the Titanic: they stayed and kept the power on so others could escape. Joseph Bell was the Chief Engineer Officer on the RMS Titanic. His staff consisted of 24 engineers, 6 electrical engineers, two boilermakers, a plumber and a clerk. None survived the sinking.

WEIRD HISTORY

According to someone who was actually there, Princess Diana once wanted to accompany Freddie Mercury and some friends to a “notorious” London bar, but she knew she’d be recognized and photographed. So Mercury came up with an ingenious disguise. It worked. The two of them spent the night secretly partying together in public and “giggling like naughty schoolchildren.”
